Thea Yusuf

Data Engineer

I am a data/software engineer from Indonesia but currently based in Stockholm, Sweden.

I strive to deliver the best end-to-end solutions for my stakeholders who are data analysts and data scientists that work for decision making engine by focusing on data quality, freshness, throughput and infrastructure with Klarna since last 2 years.

Before I worked on various backend and even frontend projects which build my software design fundamentals.

In my freetime I enjoy sauna, cooking, playing guitar, and adoring cute animals.
